## **DETAILED ACTION**

### ***Election/Restriction***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1 is drawn to a method of identifying a compound that modulates intermolecular interactions between a target protein and a modifier, classified in class 435, various subclasses .
- II. Claim 2 is drawn to a pharmaceutical composition comprising a compound selected from Formulae I-XIX, classified in class 514, various subclasses .
- III. Claim 3 is drawn to a method of treating an individual suffering from an inflammatory condition by administering a compound from Formulae I-III, classified in class 514, various subclasses .
- IV. Claim 4 is drawn to a method of treating an individual suffering from an undesirable immune response or immunological condition by administering a compound from Formulae I-VI, classified in class 514, various subclasses .
- V. Claim 5 is drawn to a method of treating an individual suffering from a bacterial infection by administering a composition comprising penicillin or a penicillin derivative antibiotic and a compound selected from Formulae VII-XIX, classified in class 514, subclasses 192 and 199.

Art Unit: 1614

The five inventions are independent and distinct, each from the other as they have acquired a separate status in the art as shown by their different classification and a separate subject matter for inventive effort. Further, a reference which anticipates any one of the above inventions would neither anticipate or make obvious of the other inventions. Each such invention is capable of supporting its own patent. For these reasons, the restriction requirement is proper.

To be complete, applicants' response must include a provisional election even though the requirement may be traverse.

The applicants are required to elect a single invention for examination purposes.

If the applicants elect an invention from Groups II-V, they must also elect a formula from the elected group.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner K. Weddington whose telephone number is (703) 308-1235.
